

The Government of the Kyrgyz Republic invites interested parties to attend the International agro-industrial exhibition AIYL-AGRO-2013, to be held on May 22-24, 2013. The International agro-industrial exhibition AIYL-AGRO is the central sectoral site for demonstration of the latest technical solutions in the agro-industrial complex. The AIYL-AGRO is the only exhibition in the Kyrgyz Republic representing the entire spectrum of equipment and technologies for the agro-industrial complex from the key world manufacturers.

Kyrgyzstan is represented at the exhibition by the National exposition of 7 regions and two cities that demonstrate the Republic's investment potential and national features to the visitors.

The exhibition is annually held by the Government of the Kyrgyz Republic in the historical center of the city of Bishkek and represents a significant event not only for the workers of the agricultural sector, but also for the country as a whole.

SECTIONS OF THE EXHIBITION

Agricultural machinery

Tractors

Machines for soil tillage and preparation for seeding

Machines and equipment for planting and seeding

Machines and equipment for spreading of fertilizers

Machines and equipment for plant protection

Machinery and equipment for irrigation and drainage

Machines and equipment for harvesting

Machinery and equipment for sorting, transporting,

processing and storage of crops

Machines and equipment for fruits, vegetables and other crops

Agricultural electronics, equipment for measuring and weighing

Automated systems of management and control

Animal husbandry

Breeding and pedigree in cattle breeding

Equipment for breeding and management of poultry,
pigs, cattle, and small cattle

Feed

Veterinary medicine

Equipment for removal of manure and manure storage systems

Equipment and technologies for dairy farms, milking parlors and dairies

Equipment for cattle slaughtering and initial processing

Equipment and raw materials for meat processing

Weighing, refrigerating, freezing and compressor equipment

Specialized transport and logistics

Ecology of production facilities

Crop production

Plant selection

Foodstuff production

Equipment for production of food products and beverages
Ingredients, additives, spices. Production processes and application
Packaging and marking equipment and materials
Weighing, control and measuring and analytical equipment
Refrigerating equipment
Shop fixtures and fittings, HoReCa
Warehouse and manufacturing logistics
Information technologies, automation and software
Industrial sanitation, cleaning equipment, detergents

Safety of food production facilities. Quality control

Bioenergetics

Leasing, credits and investments in agriculture

Consulting, scientific activity

LOCATION

Old Square, Bishkek, Kyrgyz Republic

EXHIBITING DAYS

May 22–24, 2013

Schedule:

May 22 from 10:00 till 17:30

May 23 from 10:00 till 17:30

May 24 from 10:00 till 17:30

COST OF TICKETS

Free of charge

SPONSOR

The Government of the Kyrgyz Republic

TECHNICAL INITIATOR

Association «Rosagromash»

STRATEGIC PARTNER
